

# MARS CITY

Mars's First Cryptocurrency.

Elon Musk 🐦 @elonmusk · Oct 13, 2018

Replying to @elonmusk and @owillis

About half my money is intended to help problems on Earth & half to help establish a self-sustaining **city** on **Mars** to ensure continuation of life (of all species) in case Earth gets hit by a meteor like the dinosaurs or WW3 happens & we destroy ourselves

Here is where your Life on Mars begins

# MARS & BEYOND

THE ROAD TO MAKING HUMANITY MULTIPLANETARY

You want to wake up in the morning and think the future is going to be great - and that's what being a spacefaring civilization is all about. It's about believing in the future and thinking that the future will be better than the past. And I can't think of anything more exciting than going out there and being among the stars.

Elon Musk

More details about MarsCity Token.

01

# MARSCITY TOKEN

With Musk's establishment of the first city on Mars, an economic system different from the Earth will surely be formed. It is a fact that Mars cities will definitely use a new type of currency. Traditional currency is impossible, and the popular cryptocurrency is bound to be very popular.

We have made preparations in this respect.

# Why MARSCITY TOKEN?

## Dollar&Euro&Pound

Bretton Woods system is gradually disintegrating. All economic ideas based on the federal government will fail in the cities of Mars. A new economic order is bound to give birth to a new currency.

## MARSCITY TOKEN

MARSCITY TOKEN is a currency born naturally under the laws of the universe. Anything is possible. Why can't it be MARSCITY TOKEN. MARSCITY TOKEN will be an important support and foundation of MARSCITY ecology.

# MARSCITY TOKEN UTILITY

**01** — **Fundamental Func**

**02** — **MarsCity Swap**

**03** — **MARSCITYFi GameMall**

**04** — **MarsCity Perspective**

MARSCITY TOKEN assumes the basic monetary function and ensure the ecological development of MarsCity.

Token swap is a ordinary way to trade one BEP20 token for another via automated liquidity pools. Swapping and getting MarsCity rewards on each transaction in the future.

GameMall provides reward, issuance, DeFi,armed, funds,promotion,and other services for MarsCityFi projects.

Farms and NFT are required. As we look further, excellent applications, disruptive innovations and cosmic dreams are essential.

An isometric illustration of a Mars lander and rover on a reddish-orange, cratered surface. The lander is a grey, boxy structure with two red antennas on top and two small windows. It is connected to a rover, which is a larger, more complex vehicle with a grey body, a white top, and four black legs. The rover has a yellow triangular warning symbol on its side and several small windows. The background is a textured, orange-brown surface with some darker patches.

# MARSCITY SWAP

Reasonable tokenomics will promote the healthy and sustainable development of the project. Well-designed tokenomics pays attention to the important interests and reasonable concerns of all parties, and ensures sufficient elegance in balance.

The image is a composite graphic. The left half shows a rocket launching from a launchpad, with a large plume of smoke and fire at its base. The right half shows a reddish-brown, rocky Mars landscape with two blue solar panels mounted on white tripods in the foreground.

**MarsCity Swap will be the best place  
where you can load your bags up,  
without fees and directly from  
MarsCity website.**

Everything is appropriate in MarsCity

# 210 Trillion

Total Supply

## 45%

Initial Liquidity Offering

## 55%

Presale

- ✓ Give everyone the opportunity to build a city on Mars.
- ✓ All tokens circulate in the market.
- ✓ Dev doesn't hold any tokens.
- ✓ MarsCity is a completely decentralized project.
- ✓ Create a miracle again.

# Why MarsCity Swap

Token swaps on MarsCity is a simple way to trade one BEP20 token for another via automated liquidity pools. Swap any crypto tokens, and you will get rewards on every trade in the future.

We have carefully designed fees, which can not only promote the healthy development of MarsCity, but also balance the interests of many parties. Total 8% fees: 3% for dev, 3% for MKT and 2% for liquidity.

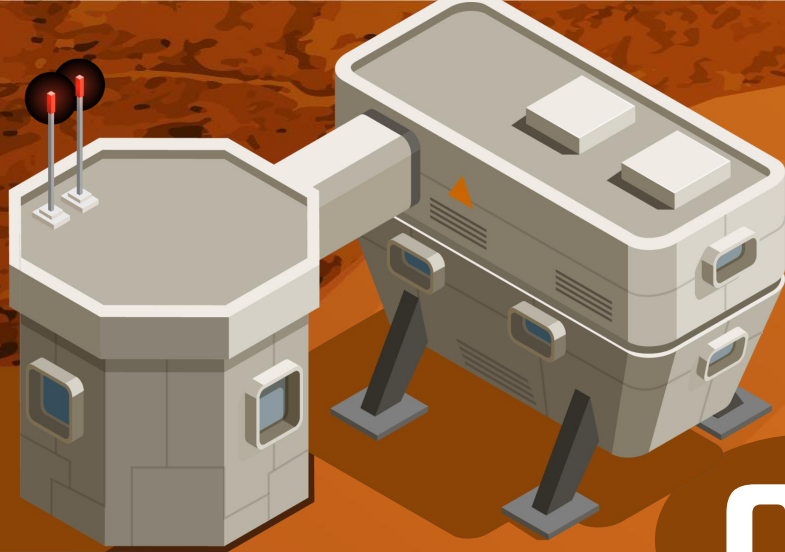

A long-term, stable and healthy MarsCity ecology is inseparable from the independent swap. Choosing MarsCity Swap is a wise and correct choice.

Unlike other AMM decentralized exchanges on BNB Chain, our recommended swap route is BNB, not USDT or BUSD. Arbitrage between MarsCitySwap and other DEXs or CEXs can cost way lower.

03

# MARSCITY GAMEMALL

Reasonable tokenomics will promote the healthy and sustainable development of the project. Well-designed tokenomics pays attention to the important interests and reasonable concerns of all parties, and ensures sufficient elegance in balance.

# GAMEMALL

**01**

## Investment

Invest a certain amount of funds to support the early development of the

**02**

## Issuance

Help the game to carry out the initial sale of assets.

**03**

## DeFi

Provide DeFi services for governance tokens and game assets, including Exchange, Staking, and other services.

**04**

## Fund

For projects with excellent performance, growth funds will be provided for project construction.

**05**

## Promotion

Resource support, including but not limited to marketing, security, community, media, CEX exchange, etc.

**06**

## More

Invite you to join us and explore more tremendous things.

# MarsCity GamePad

City Construction:ORPG WAG MMORPG, all are possible.

Conqueror:Plan to conquer Mars and earn the first bucket of gold.

Fruit Machine:Traditional and classic games can't be missed.

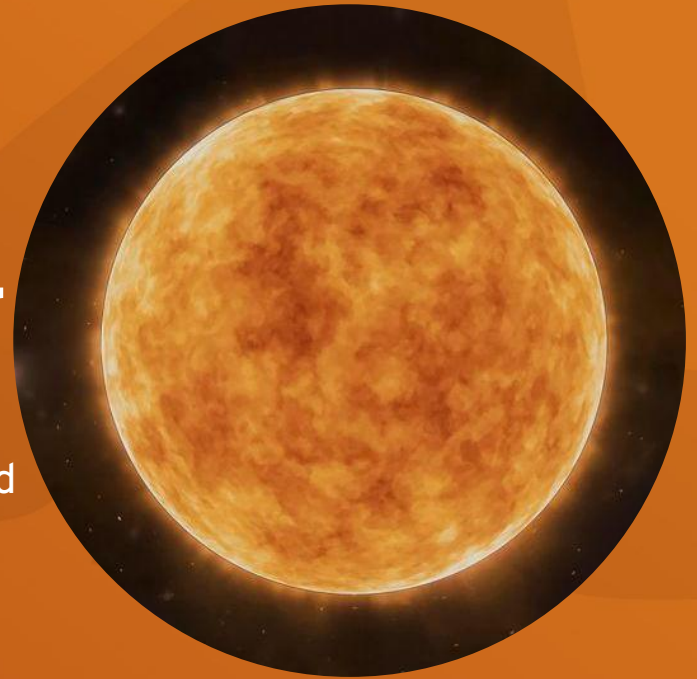

NFT:Something interesting on Mars are presented on NFT.  
Please pay attention.

# **GameMall and GamePad are important ecological links of MarsCity.**

As the endogenous power of MarsCity, GameMall and GamePad will continue to empower MarsCity and promote its continuous healthy and sustainable development. MarsCity will efficiently and stably export high-quality ecological products.

04

# MarsCity Tokenomics

Reasonable tokenomics will promote the healthy and sustainable development of the project. Well-designed tokenomics pays attention to the important interests and reasonable concerns of all parties, and ensures sufficient elegance in balance.

# Deflation Mechanism

## 0% Trade on MarsCitySwap

Extreme deflation has greatly shortened the life cycle of tokens. This is what every participant does not want to see. Trade deflation in a reasonable range can prolong the ecological life more effectively.

## 10% Game Destruction

The game service of MarsCity will destroy some tokens while charging a certain fee. Because of the low cost, 10% deflation is reasonable.

## 100% Repurchase Destruction

Ecological income will be used to repurchase tokens. Repurchasing will raise the currency price and destroy all tokens.

## X% Reasonable Prospect

The current mechanism of Mars is the optimal solution under the game theory. In the future, when there will be subversive changes, we will implement the necessary mechanisms through technologies such as cross-chain and mapping.

# THANKS

Let's meet in the MarsCity.

Ticket price, one MarsCity Token.
